

Public Consultation – Draft for supplementing the Methodology for setting the regulated tariffs practiced by the gas balancing market operator, endorsed by ANRE through the opinion no. 24/2019.

Considering:

- the provisions of art.130 paragraph (1) letter (s) of the Electricity and Natural Gas Law no. 123/2012 as subsequently amended and supplemented;
- The provisions of art.86² of the Annex to the Order of ANRE President no.16/2013, as subsequently amended and supplemented;

in order to send to ANRE for endorsement, Transgaz submits to public consultation the proposal to supplement with two paragraphs art.11 of the Methodology for setting regulated tariffs practiced by the gas balancing market operator, endorsed by ANRE by opinion no.24/2019.

Please find below the main aspects considered upon the wording of the draft:

During the tariff period 1 October 2019 - 30 September 2020, the amount recovered in excess of the income related to Transgaz' activities as operator of the gas balancing market is higher than the income allowed to be recovered, substantiated according to the provisions of the methodology for the tariff period 01 October 2020 - 30 September 2021, situation not regulated within the methodology, which leads to the impossibility to set regulated tariffs for this period.
