- C. has submitted the auction security to the TSO. Along with submitting the auction security, the network user has to declare how to divide the credit line for each of the running yearly auctions (RO>BG direction, BG>RO direction and in direction RO> Mangalia and Negru Voda).

The opening time of the above mentioned auctions shall be **5 September 2016 at 07:00 (UTC)**, which shall mean 10.00 o'clock in Romania/Bulgaria (EET). In the auction the Network Users may submit bids for the required capacity in subsequent auction rounds applying pre-determined price steps (ascending clock auction). With regard to the auction process, further information can be found in the '[Operational Rules of the Regional Booking Platform](#)' and in the '[User Manual for Network Users Members](#)'.

Regarding the mentioned interconnection points and domestic gas supply points the reserve prices of Transgaz will be published in the auction announcements, and will be expressed in GCV-based lei/kWh/h/year at the 25°C/0°C reference temperature, covering all the hours of the service period. Price steps mean the auction premium on top of the reserve price, expressed in a percentage of the reserve price.

Network Users with a winning bid in the auction are obliged to pay the capacity fee related to the obtained capacity and the eventual auction premium calculated on the basis of the underlying price step.

In accordance with the principle of equality stipulated in art. 4 of the Annex to the *Order of the President of the National Energy Regulatory Authority no. 34/19.07.2016 on the approval of the transmission capacity booking and tariff setting methodology on the natural gas transmission services supply through the Isaccea – Negru Vodă gas transmission pipelines*, at the interconnection point:
