- ↳ dividends due to shareholders were determined according to OMPF 144/2005, by applying 50,01707% to the net profit after its reunification with the amount of the costs representing employees` participation to the profit, affecting the gross profit before taxation;
- ↳ the retained earnings, for establishing own financing sources, were determined as the difference between net profit to be allocated and the profit proposed to be allocated according to GO no 64/2001.
