

„INTERCONNECTION OF THE NATIONAL TRANSMISSION SYSTEM WITH THE INTERNATIONAL GAS TRANSMISSION PIPELINES AND REVERSE FLOW AT ISACCEA (RO) ”

1. PROJECT NAME

Interconnection of the national transmission system with the international gas transmission pipelines and reverse flow at Isaccea (RO)

2. PROJECT DESCRIPTION

The project (**green line**) aims at ensuring the bi-directional flow towards Bulgaria between the National Gas Transmission System (NTS) and the Transit 1 pipeline to Bulgaria, under normal operating conditions; some of the pipes belonging to the NTS need rehabilitation works, the construction of a connection pipeline is also necessary between the Transit 1 pipeline to Bulgaria and the NTS at GMS Isaccea, a compressor station at Siliştea and bi-directional flow with Ukraine implying some works at the GMS Isaccea.

Total estimated investment value = Euro 65 million

The estimated completion deadline is 2019.

The project will consist in the following:

- Modernization and extension of the Siliștea compressor station;
- Modernization and extension of the Onești compressor station;
- Modifications within the Isaccea metering station;
- repair of the Cosmești – Onești (66.2 km) and Siliștea - Șendreni (11.3 km) pipeline sections.

The project was included under number **6.15**. on the second PCI List of the European Union adopted on 18 November 2015.
