Management's responsibility

Management is responsible for the preparation and fair presentation of the Current Reports and of the transactions included in them that are free of material misstatement, in accordance with art. 82 repealed and replaced by art. 92³ from Law no 24/2017 starting from 29.08.2020, and Regulation no. 5/2018, and for the information presented in these reports. This responsibility includes: designing, implementing and maintaining an internal control relevant to the preparation and presentation of the Current Reports that are free of material misstatement, due to fraud or error. Also, this responsibility includes compliance with the provisions of art. 82 repealed and replaced by art.92³ from Law no 24/2017 through Law no.158/2020, and Regulation no. 5/2018 and maintaining adequate supporting documents regarding the Current Reports. Management is responsible for preventing and detecting fraud and ensuring compliance with the legislation and regulations in force.

Auditor's responsibility

Our responsibility is to analyze the reported transactions included by the Company in the Current Reports and to report in the form of an independent conclusion of limited assurance, based on the evidence obtained. We conducted the engagement in accordance with International Standard on Assurance Engagements („ISAE”) 3000 regarding the assurance engagement other than Audits or Reviews of Historical Financial Information. This standard require that we comply with ethical requirements, including independence requirements, and plan and perform our procedures in order to obtain a corresponding assurance level of whether the transactions included in the Current Reports, are in accordance, under all material aspects, with art. 82 repealed and replaced by art. 92³ from Law no 24/2017 as well as of Regulation no. 5/2018, as a basis for our independent conclusion of limited assurance.

We apply the International Quality Control Standard 1 (ISQC 1) and, consequently, maintain a solid quality control system, including policies and procedures that document compliance with relevant ethical and professional standards and requirements in legislation or regulations.

We respect the independence requirements and other ethical requirements of IESBA's Accounting Ethics Code of Ethics, which sets out the fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional conduct.

The selected procedures depend on our understanding of the Current Reports and of other circumstances of the engagement, as well as our considerations on areas where material misstatements may occur. In developing our understanding on the Current Reports and on the transactions reported in the Current Reports we took into consideration the Company's internal control relevant to the preparation and presentation of the Current Reports in accordance with the provisions of art. 82 repealed and replaced by art.92³ of Law no. 24/2017 through Law no.158/2020 and Regulation no. 5/2018 in order to establish the procedures that are appropriate in these circumstances, but not for the purpose of expressing a conclusion on the effectiveness of internal control for the preparation and fair presentation of the Company's Current Reports and the transactions reported in the Current Reports.

Limited assurance is narrower than absolute or reasonable assurance. The procedures for obtaining evidence for a limited assurance engagement are more restricted than in a reasonable assurance engagement, and therefore the level of assurance obtained is lower than in a reasonable assurance engagement.

As part of this engagement, we have not performed audit review or verification procedures of the Current Reports and on the transactions reported in the Current Reports in accordance with the International Standards on Auditing or International Standards on Review Engagements, nor on the sources from which the Current Reports and the transactions reported in the Current Reports were extracted. Our procedures were only performed in connection with the Current Reports. We have not performed other additional procedures to verify whether the Current Reports include all contracts with managers, employees, shareholders, as well as their affiliated entities, to be reported according to art. 82 repealed and replaced by art.92³ of Law no. 24/2017 through Law no.158/2020, for the period July 1st 2020 - December 31st 2020.

Regarding the Current Reports, we performed the following procedures:

- We obtained from the Company the current accompanying reports and compared the details that are required to be included in these reports under Law 24/2017 (Article 82 repealed and replaced by Article 92³ through Law no.158/2020) with the information that was included in these reports by the Company.
- For a selection of Reports that we have reviewed, as defined in this report, we determined whether their details correspond to all significant aspects of the information contained in the contracts made available to us.
- To the extent that there is a market price for the goods or services provided to the Company's directors, its significant staff and shareholders and the persons involved with them, we have discussed with the management of the Company how the prices of the contracts were set and if, on a case-by-case basis, the agreed prices correspond to those used by other parties (third parties), services or similar goods. If there are no available market prices, we have analyzed whether those transactions are made based on approved and signed contracts.
- For contracts involving the application of regulated tariffs, we compared the tariffs applied with those in force at the date of conclusion of the respective contracts.

Conclusion

On the basis of the procedures and the evidence obtained, nothing came to our attention to make us believe that the transactions reported in the Current Reports from July 7, 2020, July 23, 2020, August 11, 2020, September 14, 2020 do not are in conformity, in all material respects, with the requirements of art. 82 repealed and replaced by art.92³ of Law no. 24/2017 through Law no.158/2020 and Regulation no. 5/2018 meaning that:
