According to the legal provisions in force, mentioned in chapter 3, the fixed monthly allowance for each non-executive member of the Board of Administration cannot exceed two times the average of the last 12 months of the gross monthly salary income for the activity carried out

according to the main object of activity registered by the company, at class level according to the classification of activities in the national economy, communicated by the National Institute of Statistics prior to appointment.

The fixed monthly allowance for the Director General and the executive members of the Board of Administration and the directors cannot exceed 6 times the average of the last 12 months of the gross monthly salary income for the activity carried out according to the main object of activity registered by the company, at class level according to the classification of activities in the national economy, communicated by the National Institute of Statistics prior to appointment.

The variable component of the remuneration is approved by the Decision of the Ordinary General Meeting of Shareholders.

The variable component is paid according to the degree of achievement of the performance indicators identified at the company level and included in the company's Management Plan, approved by the Decision of the Ordinary General Meeting of Shareholders. Performance targets are linked to financial and non-financial criteria.

The variable annual remuneration component will be based on financial and non-financial performance indicators negotiated and approved by the General Meeting of Shareholders. The variable component of the remuneration of the members of the Board of Administration is reviewed annually, depending on the level of achievement of the objectives included in the Management Plan and the degree of fulfillment of the financial and non-financial performance indicators approved by the General Meeting of Shareholders, annex to the Mandate Contract..

According to the legislation in force, the amount of the variable component of non-executive members may not exceed a maximum of 12 fixed monthly allowances.

Remuneration and benefits provided under the law or the mandate contract of the administrators, Director General and Economic Director within the unitary system will be recorded in the annual financial statements, in the annual report of the Nomination and Remuneration Committee and the report of the Board of Administration.

The calculation method of the value of the variable component of remuneration:

Due variable annual remuneration = Amount of variable remuneration established by the mandate contract/amendment to the mandate contract * total degree of fulfillment of key performance indicators (GTICP).

The total degree of achievement of the key performance indicators (GTICP) is the weighted average with the weightage coefficient corresponding to each ICP of the degree of achievement of each ICP (GIICP).

$GTICP = \sum(GIICP * \text{weightage coefficient})$

The degree of fulfillment of each ICP (GIICP) may be greater than 100% and less than 0% but in the calculation of the total degree of fulfillment of the ICP (GTICP) it will be taken into account as follows:

- GIICP > 100% means GIICP = 100%;
- GIICP < 0% means GIICP = 0%.

The variable component of the remuneration due to the members of the Board of Administration will be directly proportional to the GTICP for the corresponding financial year.

Also, if: $GTICP \geq 80\%$, proceed as follows:

- $GTICP \geq 50\%$ and $GTICP < 80\%$, the variable component of remuneration is not paid;
- $GTICP < 50\%$, the administrators can be revoked.

ICP is evaluated annually, based on the audited annual financial statements and other audit tools.

Remuneration of non-executive members of the Board of Administration

The fixed monthly allowance for each non-executive member of the Board of Administration may not exceed twice the average of the last 12 months of the gross monthly salary income for the activity carried out according to the main object of activity registered by the company, at class level according to the classification of activities in the national economy, communicated by the National Institute of Statistics prior to appointment.

According to the legislation in force, the amount of the variable component for the non-executive members of the Board of Administration may not exceed a maximum of 12 fixed monthly allowances.

Remuneration of the Director General and of the Economic Director

The fixed monthly allowance for the Director-General and the Economic Director may not exceed 6 times the average of the last 12 months of the gross monthly salary income for the activity carried out according to the main object of activity registered by the company, at class level according to the classification of activities in the national economy, communicated by the National Institute of Statistics prior to appointment.

The variable component is paid according to the degree of achievement of the key performance indicators identified at the company's level and included in the company's Management Plan, approved by the Decision of the Ordinary General Meeting of Shareholders. Performance targets are linked to financial and non-financial criteria.

The level of the variable component is established according to the duly motivated recommendations, formulated on the basis of a comparative study on the remuneration conditions for similar positions in companies, from the same field of activity, with majority or full state capital from other European countries.

Chapter 8. Other types of benefits
